

**CHRISTOPHER D. YOUNG**  
**PRESIDENT, ITT GEOSPATIAL SYSTEMS**

Christopher Young is the President of ITT Geospatial Systems. Headquartered in Rochester, NY, ITT Geospatial Systems is a provider of next-generation imaging that integrates space, airborne, ground and solid state sensors into broader, coordinated systems. Previously, Young served as President of ITT's Space Systems Division.

Mr. Young has spent his career with ITT, first joining the company's Aerospace Communications Division (A/CD) in 1982. After serving in a series of managerial and project engineering positions, he was named Director of Space Engineering for A/CD in 2001, where he was responsible for all space engineering activities, including process quality and process improvements. In 2003, he was named Director, Space Programs for A/CD.

Mr. Young holds a Bachelor of Science degree in electrical engineering from Ohio State University.
